### Appointment to a “Corresponding Member” of the German Soil Science Society (DBG)

Dear Prof. Kabala,

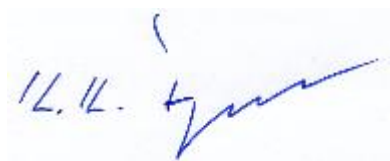

It is my honor and pleasure to inform you that the Board of the German Soil Science Society (DBG) in its recent meeting has appointed you to a “Corresponding Member”. This honorary title is a salute and mark of respect for esteemed colleagues from abroad.

<https://www.dbges.de/en/Honorary-members-and-corresponding-members-DBG>

With this appointment the DBG appreciates your continued commitment for the transboundary cooperation and exchange of knowledge. So, I just like to remember the co-organization of the German-Polish Workshop in Görlitz/Zgorzelec in June 2000, numerous field excursions and meetings with student groups from both countries since then, your active contributions to meetings in Germany and elsewhere, or the establishment of the UNU-FLORES / TU Dresden partnership in 2016.

Finally, we do hope that this appointment will contribute to the fostering and further development of good cooperation between our two soil-related communities in the fields of academic teaching, research, and practical application of knowledge as well as the mutual understanding of the people of our two nations.

Sincerely and with best regards,

Prof. Dr. Karl-Heinz Feger  
President
